

## INTERNATIONAL SEARCH REPORT

International application No.

PCT/AU2004/000642

## A. CLASSIFICATION OF SUBJECT MATTER

Int. Cl. <sup>7</sup>: A61K 38/12; A61P 7/08

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

Medline: Hemorrhage, Shock, Complement 5a,

## C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	Heller T, Hennecke M, Baumann U, Gessner JE, zu Vilsendorf AM, Baensch M, Boulay F, Kola A, Klos A, Bautsch W, Kohl J. Selection of a C5a receptor antagonist from phage libraries attenuating the inflammatory response in immune complex disease and ischemia/reperfusion injury. J Immunol. 1999 Jul 15;163(2):985-94. See the whole document, particularly the results and discussion on pages 991-993	1-23
Y	Younger JG, Sasaki N, Waite MD, Murray HN, Saleh EF, Ravage ZA, Hirschl RB, Ward PA, Till GO. Detrimental effects of complement activation in hemorrhagic shock. J Appl Physiol. 2001 Feb;90(2):441-6. See the whole document, particularly Figure 1, and the discussion.	1-23
Y	WO 1999/000406 (The University of Queensland, 7 January 1999). See the whole document.	1-23
T	Szebeni J, Baranyi L, Savay S, Gotze O, Alving CR, Bunger R, Mongan PD. Complement activation during hemorrhagic shock and resuscitation in swine. Shock. 2003 Oct;20(4):347-55. See the whole document, particularly the discussion.	1, 21

☒ Further documents are listed in the continuation of Box C
 ☒ See patent family annex

*. Special categories of cited documents:	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"A" document defining the general state of the art which is not considered to be of particular relevance	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"E" earlier application or patent but published on or after the international filing date	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"&" document member of the same patent family
"O" document referring to an oral disclosure, use, exhibition or other means	
"P" document published prior to the international filing date but later than the priority date claimed	

Date of the actual completion of the international search 16 June 2004	Date of mailing of the international search report 09 JUL 2004
Name and mailing address of the ISA/AU AUSTRALIAN PATENT OFFICE PO BOX 200, WODEN ACT 2606, AUSTRALIA E-mail address: pct@ipaustalia.gov.au Facsimile No. (02) 6285 3929	Authorized officer  JASON MACKENZIE Telephone No : (02) 6283 7934
